

A.

---

B.

---

C.

D.

1. What interests you about Health Studies?
2. What Health Studies electives are you excited about taking and why? If you have already completed your electives, what did you find most valuable and how did these courses contribute to your decision to declare the minor?
3. How does the Health Studies curriculum complement or depart from your major or other minors and concentrations?
4. How will a Health Studies minor help you reach your academic and professional goals?
