Dear Alison and CAP colleagues,

Literature with expertise in cultural, literary, historical, and theoretical issues. Finally, I approve a position in Theater, with the requirement that all candidates be able to originate theater productions and direct plays in the College's small and highly collaborative program and with the recognition that Goodhart is to be actively available to and usable by all campus constituents. It is understood that the person in this new position will teach courses regularly

know that CAD, the Curriculum Committee, and the majority of programs and departments

found the process to be a positive and productive one.
